

HISTORICAL TRENDS IN HIGH CAPACITY WELL GROWTH IN THE CENTRAL SANDS

		WELLS ADDED DURING PERIOD	AVERAGE ADDED/YEAR	TOTAL NUMBER OF WELLS AT END OF PERIOD <small>(ABANDONED WELLS MAY STILL BE INCLUDED IN TOTALS)</small>
DATA FROM	before 1950	24		
CENTER	50's	141	14.1	165
FOR	1960's	523	52.3	688
LAND	70's	789	78.9	1477
USE	1980-2000	1101	55.1	2578
EDUCATION	2000's	399	39.9	2977
FROM	2010-2012	319	106.3	3296
DATA				
SUPPLIED BY DNR	IRRIGATION ONLY			
(THESE ARE APPLICATIONS	Adams	85	28.3	
APPROVED NOT	Marquette	30	10.0	
NUMBR OF WELLS	Portage	88	29.3	
INSTALLED)	Waupaca	13	4.3	
	Waushara	57	19.0	
	Wood	6	2.0	

From 2010 through 2012 we can see a higher average number of high capacity wells added/approved than the average for any year since 1950

NOTE: In Adams, Marquette and Waushara Counties, the number of irrigation wells approved in 2012 was higher than in 2010 or 2011
